

REDUCING TUBE UNIONS RU

Connects fractional tube (reducing)
Classification: Tube to Tube Union Fitting

Part Number	Tube O.D.				E Min.	Width Across Flat						A	A1	B	B1	l	L

All dimensions are in millimeters unless otherwise specified, for reference only and subject to change.

Operating Pressures & Temperatures - Stainless Steel Compression Tubing

- Applications Include: Compression, Instrumentation, Vacuum, Gas, Cryogenic, High pressure & Temperature Service.
- These tube fittings are designed using industrial codes and specifications with additional cutting-edge engineering on swaging action and sealing integrity.
- They also provide excellent leak-free sealing on high pressure gas, vacuum, impulse, thermal shock, heavy vibration and many other stringent applications.
- All tube fittings are double ferrule and consist of a body, front ferrule, back ferrule and nut.
- Stainless steel bar stock conforms to ASTM A276, ASTM 479, ASME SA479 and JIS GA 303
- Stainless steel forged fittings conform to ASTM A182, ASME SA 182 and JIS G3214
- The pressure rating of a BFO Tube Fitting is rated to the [working pressure of the connective tubing](#).
